

# MANUAL - How to Add the Link/Banner to Your Website

Decide which of the Links/Banners below you would like to have on your website.

Click on the Select code to highlight all of the necessary html code.

Copy the code to your clipboard by pressing Ctrl + C or right click on the highlighted code and choose copy from your drop down menu.

Paste the code into your page editor - HTML of your web page. Make sure you are in HTML mode before pasting.

Example of a link code:

```
<a target="_blank" href="http://www.YOURWEBSITE.co.uk" title="My best website">My best website for banner</a>
```

Example for an editor like: Wordpress, blogger, etc :
